# PREFACE.

---

*The engravings for this edition have been made from photographs, and are very accurate.*

*The Numbers used to designate the articles have been entirely changed, so that, to avoid mistakes, it is very important to use the same names and numbers that we have used, and to give the date of this Catalogue. It is also necessary to designate the kinds of wood and the colors wanted.*

*Particular attention is directed to the styles of Bent Chairs. In this class of work we shall continue to increase our varieties. The Broad Bent Dining Chairs, Nos. 115 and 116 (see page 20), will be found very serviceable.*

*We have facilities for executing orders promptly, and respectfully solicit patronage, believing we can give satisfaction.*

*Price Lists, corresponding to this Catalogue, can be obtained upon application.*
